

**DOWNHILL  
ETNIES CAMBER CRANK**

The Camber Crank model from Etnies is a completely new performing cycling shoe equipped with Michelin soles. The shoe is dedicated to all MTB and BMX cyclists and is inspired by the three-time Red Bull Rampage champion Brandon Semenuk. The latter has been designed to guarantee up to three times more grip and is characterized by a tread with reinforced toe and heel. The Camber model is perfect if you are looking for additional grip on your pedals, a rigid and resistant sole and, at the same time, more traction when riding on more aggressive trails and tracks. Other important features are the abrasion-resistant nubuck upper, the gusseted tabs to keep out of the water and a secret tongue pocket to store the laces.
