HOOK, LINE & SINKER

Forget **Michelin** stars — these boots are all about Michelin soles. **Orvis** is giving fly fishers the new Pro Wading Boot, available March 2019, secured with soles from the Michelin Man himself. The soles are inspired by agricultural tires and offer increased stability and reduced shock. And the boots also feature the industry's first-ever polyurethane-casting construction, which allows for a seamless shoe, helping to avoid water leaks and rips.
